

Specifications

SMART wall stand kits for SMART Board® interactive flat panels

Models WSK-SINGLE and WSK-DUAL

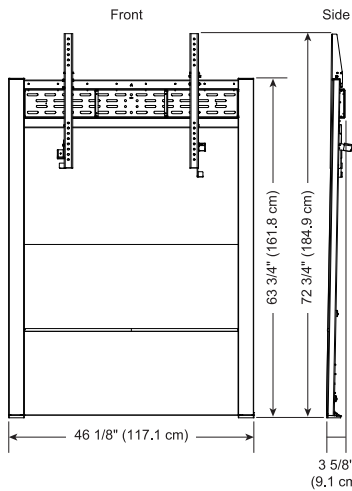

Overview

An optional accessory for your SMART Board® interactive flat panels, the wall stand kit includes one or two wall stands and a cable raceway and can be used with SMART Board interactive flat panel wall mounts (sold separately). The wall stands and the cable raceway can cover cables running from the interactive flat panels to the meeting room table. In addition, the wall stands transfer some of the weight from the wall to the floor and are required for metal stud walls that cannot support the full weight of the interactive flat panels. The cable raceway complies with section 303 of the ADA design standards.

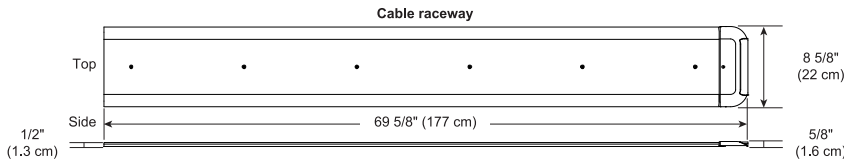

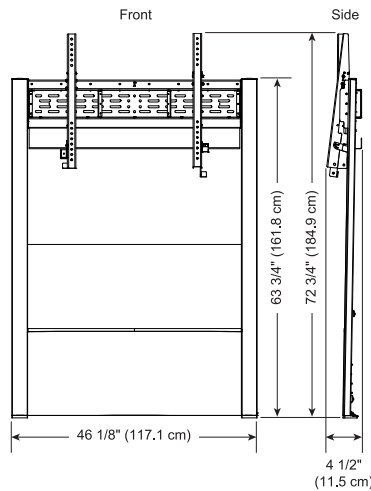

Dimensions and weights*

Dimensions

Wall stand with SMART Board 8070i-G4 interactive flat panel wall mount (WM-SBID-501)

Wall stand with SMART Board 8084i-G4 interactive flat panel wall mount (WM-SBID-502)
